CAPABILITIES STATEMENT

ABOUT DEGRITA HOLDING

DEGRITA Holding Limited Liability Company is a locally legally registered DRC company, established in 2019 in the Lualaba Province with a collective experience of over 6 years in Engineering, technical, and logistic services with a strong focus on safety, sustainability, and improvement. We strive to become the leading service provider to our business partners by:

- ✓ Providing professional and reliable services that effectively and efficiently meet our client's needs,
- ✓ Establishing trusting relationships with all our stakeholders,
- ✓ Opening ethically and sustainably toward our clients and the communities we serve.

Our Mission Statement

To be the leading provider of the highest quality services by achieving satisfaction delivery through competency and professional integrity.

We create high-performing teams that are aligned with our vision & and values.

Vision & Value

At the heart of DEGRITA's philosophy is our strong, values-based culture that focuses less on what we do, and more on how we do it.

It's no surprise then that our DEGRITA vision and values are incredibly important to each and every one of us.

Vision

To be the market leader in project delivery, integrated engineering services, achieving sustainable growth through the quality of our people and the strength of our relationships.

Corporate values

Safety: Safety and health are what matter most.

Excellence: Quality works

Integrity: Honest with our clients.

People: The people we have are the strength of our business.

Leadership: We take ownership and lead by example at all levels.

Teamwork: We work together and support each other to achieve success.

Client Relationships: We have trusting relationships with our clients. **Community:** We show respect for the community and the environment. **Shared Success**

At DEGRITA HOLDING we strive for Shared Success. This is achieved by developing high-performing teams that are aligned to our vision and values. Shared success is dependent upon strong professional relationships and having genuine conversations. We know that if we succeed, then all our valued clients, partners, and shareholders also succeed. This integrated approach begins with our people and the belief that together we can develop trusting relationships with all stakeholders to achieve long-term mutual goals.

Intent

This Business Capability Statement highlights our organization's experience and capacity to service our customers.

At DEGRITA HOLDING we strive for Shared Success. This is achieved by developing high performing teams that are aligned to our vision and values. Shared success is dependent upon strong professional relationships and having genuine conversations. We know that if we succeed, then all our valued clients, partners, and shareholders also succeed. This integrated approach begins with our people and the belief that together we can develop trusting relationships with all stakeholders to achieve long-term mutual goals.

CORE COMPETENCIES & EXPERTISE

DEGRITA HOLDING LLC is a business development consulting of experienced services.

We work in the multidisciplinary engineering consultancy and execute small or big projects and engineering management and will build an appropriate engineering capacity for your technical requirements.

We provide the following services:

Competencies & Expertise

Industrial maintenance of UPS units (Electrical engineering)

Industrial maintenance of UPS (Uninterruptible Power Supply) units in the field of electrical engineering is crucial to ensure the continuous availability of critical power supplies;

Maintenance and cleaning of industrial sites is essential to ensure a safe, clean, and efficient working environment. Here are some general guidelines for the maintenance and cleaning of industrial sites: industrial site cleaning and maintenance;

Helping to optimize process control: Optimizing process control is crucial to guaranteeing a company's operational efficiency, product quality and overall profitability;

Supply chain

Managing the engineering materials supply chain is crucial to ensuring efficient, timely and cost-effective procurement of the raw materials needed for production and work progress;

Instrumentation and control systems: Instrumentation and control systems are essential elements in a wide range of industrial fields for measuring, monitoring, regulating and controlling processes

Industrial site cleaning and maintenance: Maintaining a clean, safe, and productive workplace requires regular industrial site cleaning and upkeep.

Installation and commissioning of industrial generators: Ensuring the seamless functioning and dependability of power production systems hinges on the installation and commissioning of industrial generators.

Competencies & Expertise

Industrial engineering partner: The choice of an industrial engineering partner is crucial to the success of a project, bringing specialized skills, technical resources and sector expertise.

Our partnerships are often aimed at improving operational efficiency, innovating product or process design, and staying competitive in the marketplace.

Design and implementation of industrial projects : The design and implementation of industrial projects are essential processes in industrial engineering. These activities encompass the entire life cycle of a project, from the initial design phase through to operational implementation.

Professional consulting: Our professional consulting services cover a wide range of fields, and as a company, we are there to add value by sharing our expertise in specific areas;

Civil engineering work: We offer Civil engineering work covering a variety of construction projects, including the design, construction and maintenance of civil infrastructures;

Industrial vocational training for workers: Industrial vocational training for workers is an essential component of workforce development in many industries. This type of training equips workers with the specific skills and knowledge they need to perform their jobs effectively within industrial settings;

Maintenance of various industrial equipment: Maintenance of various industrial equipment is a critical aspect of ensuring operational efficiency, safety, and longevity within industrial settings;

Climate engineering work: the HVAC sector covers a range of activities related to the design, installation, maintenance and optimization of heating, ventilation, air conditioning (HVAC) and plumbing systems in buildings.

Competencies & Expertise

Import and export: we respectively purchase goods or services from abroad through quality control, customs clearance, logistics and transport. These activities are vital to international trade;

General boilermaking: is dedicated to the design, manufacture, repair and installation of specific metal products called boilers. We work primarily with metals, usually steel, aluminium or stainless steel, to create custom structures and components;

Computing, printing and office automation: computing plays a key role in the management of office and printing processes, while office automation is crucial to the day-to-day running of businesses;

Miscellaneous supplies: food processing, etc.: the supply of various products to the food industry is essential to guarantee quality, food safety and compliance with regulatory standards. This industrial sector encompasses the production, processing and distribution of food products;

Installation of CCTV cameras: Installing video surveillance cameras (CCTV) is an essential task for ensuring security and surveillance in a variety of environments such as homes, businesses, educational institutions and public spaces;

Design and implementation of industrial projects: we offer services in the design and realization of industrial projects; these involve planning, engineering, project management and the execution of various phases to achieve the objectives defined by our potential customers;

Woodworking services: we are in the carpentry business, which covers a wide range of services, from furniture manufacturing to the construction of wooden structures and the installation of doors and windows, not to mention carpentry.

Fire extinguishers are essential safety equipment designed to extinguish incipient fires.

Their usefulness is manifold: for us, it's crucial to provide these indispensable work tools.

PAST PERFORMANCE

Competencies & Expertise

Degrita Holding provides more activities such as:

- ✓ Installation of lightning protection system at Kamoia Copper
- ✓ Supply and Installation of Electric power systems at Kamoia Copper
- ✓ Supply and installation of optical fiber at Kamoto Copper
- ✓ Oil purification of HV Transformers 33KV/220KV at Kamoia Copper
- ✓ Analysis of Dissolved Gas of Transformers at Kamoia and KCC and Kisenda Copper Company
- ✓ Supply of Siemens products to Plantation et Huileries du Congo
- ✓ Installation of CCTV-Cameras operation system at KCC-KTC Plant
- ✓ Supply of Fiber Optic at KCC and MMG
- ✓ Supply of electrical meters to SNEL DDK
- ✓ Supply of UPS solutions to KCC at KTC
- ✓ Commissioning of Chlorine Dioxide Drinking Water Disinfection at Kamoia Copper
- ✓ Maintenance of Generators at Kamoia Copper
- ✓ Maintenance of Sewage water treatment system at Kamoia Copper
- ✓ Labour Hire.

We have been established since 2019 and we have a strong track record in achieving outstanding results for our customers. DEGRITA HOLDING successfully works with a wide variety of customers including KCC SA, KAMOA Copper SA, GCM SA, MMG, SNEL, KICC, etc

We have a sound approach to business practice and strive for excellence in everything we do.

DEGRITA HOLDING has developed the following mission statement that guides our organization and the way we work.

It is the mission of DEGRITA HOLDING to provide Electrical Engineering services, Procurement & and logistics to our customers, supporting them to succeed and achieve their individual goals and objectives.

OUR LEADING CLIENTS

DEGRITA HOLDING is an experienced organization that has worked with a variety of businesses in Electrical Engineering. Examples of our clients include:

KAMOA COPPER SA

- Supply and installation of Lightning system protection
- Earthing for electrical circuits
- Oil purification of HV Transformers
- Maintenance & Sewage treatment system
- Supply & Installation of Solar Electric power systems
- Maintenance service of Generators
- Analysis of Dissolved Gas of Transformers
- Commissioning of Chlorine Dioxide Drinking Water Disinfection.

KCC SA

- Supply & and installation of CCTV-Cameras Operation System at KTC Plant
- Supply Fiber optic multimode and single mode cables
- Supply of UPS solutions for instrumentation circuits
- Analysis of Dissolved Gas of power Transformers
- Installation of Fiber Optic cables
- Supply the LED strip light for underground mine
- Earthing for electrical circuits

GECAMINES SA

- Supply of technical and skilled team

MUTANDA MINING SARL

- Supply of UPS solutions for MCC

MANAGEMENT PROFILE & TECHNICAL KEY PERSONNEL

Our experienced and qualified management team has extensive experience and expertise in technical, mechanical, engineering works, and logistic services.

1. Charles D. KABULO
Managing Director
2. MUTOMBO KABEYA Richard
Administration & Human Resources Manager
3. TSHIYAZ KAKWAT Didier
Safety Manager
4. LOKASO WEMBO Samuel
Financial Director
5. KAPENGA MUTOMBO Benjamin
Project Engineer
6. MASAMBA NEBELO Moise
Quality Control Engineer

Competitive Skills

- ✓ We are local and provide services to local companies.
- ✓ We deliver the highest quality level attainable on every project we undertake.
- ✓ We are on-schedule, responsive, and prompt with every request and contract requirement.
- ✓ We will provide fully qualified and technically capable staff.
- ✓ We will communicate frequently, professionally, and effectively.
- ✓ We will be fair and competitive in pricing and strive to provide customers with the best value on every project or contract.
- ✓ We are committed to excellence in everything we do.
- ✓ In our 6 years of operation, we have met every contract cost, schedule, and performance requirement for every contract we have been awarded.

Occupational Health & Safety

- ✓ We have in place strictly compliant Occupational Health and safety policies and procedures that are implemented at all times at every work site.
- ✓ The safety of our employees is imperative as well and these procedures represent a significant investment by the company for our goal of lost time injuries, we manage to achieve this successfully and consistently.

Quality Assurance

- ✓ DEGRITA Holding ensures we meet and maintain ISO 9001 Quality Management Systems, ISO 45001 HSE Management Systems, ISO 31000 Risk Management, and ISO 14001 Environmental Management.
- ✓ We adhere to our own Business Management System which covers all aspects of workplace Health & Safety Policy and Procedures, safe work Method statement, and Safety Management Plan; this documentation is available upon request.
- ✓ Performance evaluation can be unique for each project. To ensure the delivery of outstanding performance as our customer sees it, we adapt our operation to meet each customer's specific needs and expectations while ensuring adherence to our internal performance standards.

Our Clients

- Client: Kamoto Copper Company SA (KCC)
Scope of work: Maintenance, supply & service
- Client : Kamoia Copper SA (KC)
Scope of work: Maintenance, supply & service
- Client : Mutanda Mining SA (MUMI)
Scope of work: Supply
- Client: Kinsenda Copper Company SA (KICC)
Scope of work: Supply
- Client: MMG
Scope of work: Supply

SERVICES PRODUCTS AND ACHIEVEMENTS

SERVICES & PRODUCTS

Installation of Led solar street light in the Manika commune

Supply of Led Flex Strip for underground mine use at KCC

SERVICES & PRODUCTS

We provide the Solar Equipment's and Installation

SOLAR

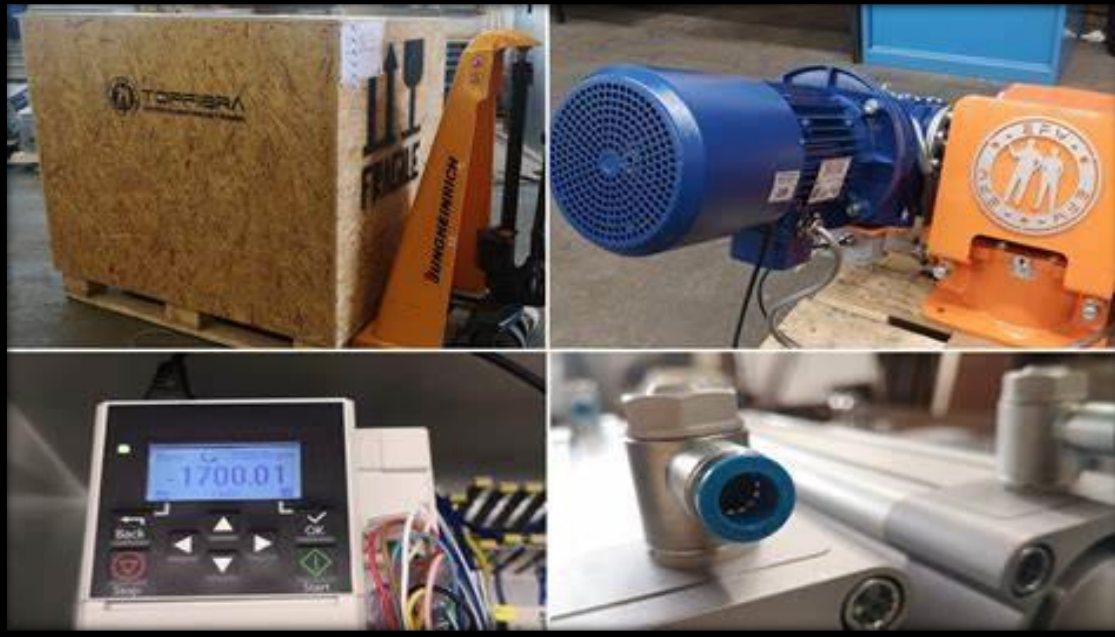

SERVICES & PRODUCTS

Supply of meters for MV substations at SNEL

SERVICES & PRODUCTS

Instrumentations Equipment's Supply at KCC SA and MUMI SA

SUPPLY

SERVICES & PRODUCTS

Lightning Protection System installation at Kamoia -Kakula

Analysis of Dissolved Gas of Transformers at KAMOA, KCC and KICC & KCC KCC

Oil purification of HV Transformers at Kamoa Kakula plant

SERVICES & PRODUCTS

Commissioning of Chlorine Dioxide Drinking water disinfection at Kamoja base

SERVICES & PRODUCTS

Fiber Optic cables supply at KCC SA & Generator's spares at Kamo

We offer extinguishers for fire suppression system.

SERVICES & PRODUCTS

CCTV and fiber network installation at KCC SA

SERVICES & PRODUCTS

UPS solution supplied to KCC and MUMI SA

SERVICES & PRODUCTS

Supply of Siemens spares at KCC and Plantations Huileries du Congo
